

## **Features of solar inverter.**

- 250v to 900v. 3&single phase**
  - Low carbon economy**
  - In-built MPPT with high efficiency Pump specific protection**
  - Remote monitoring Best off grid solution**
  - Perfect stable frequency output Applications**
  - Ground water lowering,**
  - Irrigation systems**
  - Industrial Application**
  - Drip irrigation& sprinkler**
  - Tank/ cistern filling**
  - Wildlife refuge**
  - Rural water supply for ranches, cabins, and cottages**
- Fountains.**
