

## **Description of the product:-**

### **Features:**

- Stainless steel 304.**
- Maximum fluid temperature up to more than 80C**
- Adopted the NEMA standard**
- Insulation class:E**
- Protection grade:IP 68**
- Water supply system**
- High- rise supercharging**
- Garden and farmland irrigation**
- Pumping ground water**
- Various industrial applications**
- High efficiency.**
- Curve tolerance according to ISO .**
